Advanced Scrum Master Certification Path

Advanced Scrum Master CERTIFIED

Take the next step in your learning and career with the Advanced Scrum Master Certification Path. This renewable certification supports Scrum Masters/ Team Coaches in building a high-performing team that drives business outcomes for the organization, emphasizing skills-based expertise and application rather than a knowledge-based assessment.

Advanced Scrum Master includes:

1 SAFe micro-credential

A facilitated half-day session focusing on techniques that help leaders navigate conflicts that arise in collaborative decision-making.

3 SAFe Skills

One-hour self-paced eLearnings that build mastery over flow metrics, help identify and apply flow accelerators, and support the cultivation of high-performing teams.

4-hour Learning Lab

A small group session where learners complete case-study-based scenarios to consolidate what they have learned through real-world application.

Throughout the learning path, learners will complete various activities to practice and apply knowledge, and the Learning Lab will cumulatively assess all skills gained through scenario-based opportunities for observation. Those who complete all required elements will be eligible for the Advanced Scrum Master certification.

Who should attend?

- Scrum Masters/ Team Coaches
- Product Owners
- Release Train Engineers
