

COURSE BROCHURE · VERSION 2026

No-Code AI Agents & Automation™

A fleet of agents, a voice agent, and a working app

2 days

LIVE ONLINE

8 hrs

PDUS

Included

COURSEWARE

\$400

PER SEAT

NEW IN THIS RELEASE

A fleet, not a single chatbot

Day one is specialized agents that collaborate on company work, grounded in RAG, with handoffs and approvals.

Voice plus a working app

Day two you build a voice agent and use Claude Code or Codex to have an agent build a working application.

One connected system

You leave with agents, knowledge, voice, and software wired into one workflow — not a pile of demos.

★★★★★ 4.9 / 5

Rated by learners on Google. Agile36 has trained professionals at Fortune 100 and Fortune 500 companies, government agencies, and universities for more than a decade.

WHAT CHANGED IN VERSION 2026

Not a prompting class

This is not another course about prompting AI. You build a fleet, a voice agent, and an app.

Eight hours, four hours a day

Two live days. You build the whole time.

Current stack

GrokBot, RAG, Claude Code, Codex, n8n, and voice AI.

01 · PROGRAM OVERVIEW

Build a fleet of AI agents, a voice agent, and a working app

This is not another course about prompting AI. Over two live, hands-on days, you will build a connected fleet of business agents, create an AI voice agent, and use Claude Code or Codex to have an agent build a working application.

You'll learn how to combine GrokBot, RAG, Claude Code, Codex, n8n, and voice AI to turn a business challenge into a functioning AI-powered system. The journey is Company Challenge → Agent Fleet → RAG Knowledge → Voice Agent → AI-Built Application → Working Business System.

THE AGILE36 DIFFERENCE

You will not spend eight hours watching demonstrations. You build with GrokBot, RAG, Claude Code, Codex, n8n, and voice AI — and leave with one working system.

Every class is live, capped for discussion, and led by practitioners who have led enterprise AI and transformation programs.

2

Days, live and instructor-led

4

Hours per day

8

Hours of live training

1

Complete system: fleet, voice, and app

WHAT'S INCLUDED

8 hours live

2 days of instructor-led virtual classroom — not recordings.

Certification

AI Agents and Automation™.

8 PDUs

Credit toward PMI and Scrum Alliance renewal requirements.

Post-class coaching

One-to-one executive coaching sessions after the cohort ends.

Digital workbook

The 2026 courseware, yours to keep and annotate.

AI prompt library

Reusable prompt patterns you can run the week after class.

Case studies

Real-world scenarios from organizations already doing this.

Free reschedule

Miss a session and join the next cohort at no extra cost.

Hands-on, not lecture. The class runs on activities, small-group discussion, role-play, and a running case study — including 4 AI activities where you write prompts, critique the output, and edit it into something a real team could use.

02 · WHY THIS CERTIFICATION, NOW

You will not spend eight hours watching demonstrations

Most AI courses stop at prompting. This class is a build: a fleet of agents on company knowledge, a voice agent that can talk, and an application planned and built by Claude Code or Codex — connected into one working system.

WHERE THIS TRAINING LANDS

Agile36 has delivered this course into:

- ✓ Financial services and insurance
- ✓ Healthcare and life sciences
- ✓ Government and public sector
- ✓ Telecom and media
- ✓ Retail and logistics
- ✓ Higher education

03 · DELIVERY MODE

- ✓ Live virtual classroom delivered remotely worldwide, over 2 days
- ✓ Taught by practitioners who have led enterprise AI and transformation programs, never contractors reading slides
- ✓ Cohorts kept small enough for real discussion and Q&A
- ✓ Open to attendees anywhere — weekday and weekend cohorts across US time zones, with private cohorts timed to your region

PREREQUISITES

- ✓ None. No programming background is required.
- ✓ Bring a real business process you would like to automate.
- ✓ A laptop and a willingness to build in the session.

04 · WHAT YOU'LL BE ABLE TO DO

Outcomes you can point to on Monday morning

Build

- ✓ A fleet of specialized agents that collaborate on company work
- ✓ A RAG knowledge system grounded in company information
- ✓ A voice agent capable of holding real conversations
- ✓ A working application planned and built by an AI agent

Connect

- ✓ Connected workflows with agent handoffs and human approvals
- ✓ Use n8n to wire the agent fleet together
- ✓ Connect the voice agent to company knowledge and business workflows
- ✓ One complete workflow connecting agents, knowledge, voice, and software

Ship

- ✓ Turn a business process into an agent-powered workflow
- ✓ Use Claude Code or Codex as the application-building agent
- ✓ Test the complete agent fleet from beginning to end
- ✓ Leave with a working AI-powered business system

AI-augmented product work NEW

- ✓ Combine **GrokBot, RAG, Claude Code, Codex, n8n, and voice AI**
- ✓ Ground agents in **company knowledge** with RAG
- ✓ Create **handoffs and human approvals** so work stays trustworthy
- ✓ Build a **voice agent** that can hold a real conversation
- ✓ Use Claude Code or Codex to **plan, design, and build** the application

05 · WHO SHOULD ATTEND

Operations Leads

Automating manual processes.

Product Managers

Prototyping without engineering.

Business Analysts

Turning process into workflow.

Scrum Masters

Removing team toil.

Consultants

Building client solutions fast.

Founders

Shipping without a dev team.

Marketers

Automating campaigns and content.

Support Leads

Deflecting repetitive work.

Certification. No exam. You earn the AI Agents and Automation™ certification, and leave with the agent fleet, voice agent, and application you built in class.

06 · COURSE CURRICULUM

2 modules, 2 days

The official 2026 module structure.

01 Day One: Build the Agent Fleet

- Turn a business process into an agent-powered workflow
- Define agent roles, goals, instructions, tools, and guardrails
- Build agents that perform different parts of the work
- Ground agents in company knowledge using RAG
- Create agent handoffs and human approval points
- Use n8n to connect the workflow
- Test the complete agent fleet from beginning to end

02 Day Two: Build a Voice Agent and an AI-Powered App

- Build a voice agent that can hold natural conversations
- Connect the voice agent to company knowledge and business workflows
- Define the purpose and requirements for a business application
- Use Claude Code or Codex as the application-building agent
- Watch the agent plan, design, and build the application
- Test and improve the voice agent and application
- Connect everything into one working AI-powered business system

07 · AI IN THIS COURSE

Two days, all of them hands-on

Day one is the agent fleet. Day two is the voice agent and the application. You will not spend eight hours watching demonstrations.

Build the agent fleet DAY 1

Turn a business process into specialized agents with roles, tools, RAG knowledge, handoffs, and human approvals — then connect it in n8n and test end to end.

Build the voice agent DAY 2

Create a voice agent that can hold natural conversations and connect it to company knowledge and the workflows you built on day one.

Have an agent build the app DAY 2

Use Claude Code or Codex as the application-building agent. Watch it plan, design, and build a working application from your requirements.

Connect the whole system DAY 2

Bring the fleet, RAG knowledge, voice agent, and application into one working AI-powered business system.

PROMPTING TECHNIQUES YOU'LL TAKE AWAY

- Combine **GrokBot, RAG, Claude Code, Codex, n8n, and voice AI**
- Ground agents in **company knowledge** with RAG
- Create **handoffs and human approvals** so work stays trustworthy
- Build a **voice agent** that can hold a real conversation
- Use Claude Code or Codex to **plan, design, and build** the application

RESPONSIBLE AI

A full topic, not a disclaimer. You'll work through common AI risks and the three aspects of responsible use:

- ✓ **Trustworthy AI** — reliable enough to base a decision on
- ✓ **Explainable AI** — you can say why it produced that
- ✓ **Human-centric AI** — the person stays accountable

08 · YOUR INSTRUCTORS

Taught by practising SPCs

**Deadra Stevenson****CEO & Founder · SPC®**

15+ years leading large-scale change and 30+ Lean-Agile transformations for Fortune and enterprise organizations. Pairs deep SAFe expertise with practical AI transformation guidance.

**Marcus Ball****Enterprise Agile Coach · SPC®**

Specializes in SAFe certification training and transformation coaching, helping teams improve flow, alignment, and the value they actually deliver.

**Joe Puoci****Enterprise Trainer · SPC®**

Delivers live virtual SAFe courses across the portfolio with a focus on real-world scenarios and skills learners can use the week after class.

**Martina Svoboda****Enterprise Agile Coach · SPC®**

Learner-centered facilitation spanning Agile transformation, organizational development, and change leadership.

ENROLL

\$400

~~\$800~~ per seat, everything included

Weekday and weekend cohorts running throughout the year. Groups of five or more save 20%; private cohorts can be scheduled around your PI calendar.

agile36.com/courses/ai-agent-builder**ABOUT AGILE36**

Agile36 is a transformation and technology enablement firm helping organizations accelerate performance, modernize operations, and build the capabilities required to compete in the digital era. For more than a decade we have partnered with Fortune 100 and Fortune 500 companies, government agencies, and universities to guide large-scale change.

This course is Agile36's own programme, built and delivered by our practitioners — hands-on, practical training that helps leaders adopt new ways of working and produce measurable results.

**WEB**www.agile36.com**EMAIL**d.stevenson@agile36.com**BASED IN**

Miami, Florida · Delivered live online worldwide

This is an Agile36 programme. It is not a Scaled Agile course and confers no SAFe® certification; the credential awarded is AI Agents and Automation™. Course content current as of version 2026. Pricing and schedules current at time of publication; see agile36.com for live availability.
