

COURSE BROCHURE · VERSION 6.0

Responsible AI for SAFe Enterprises

Putting responsible AI on the portfolio backlog

Half a day

LIVE ONLINE

4 hrs

PDUS & SEUS

Included

COURSEWARE

\$350

PER SEAT

NEW IN THIS RELEASE

A half day, four outputs

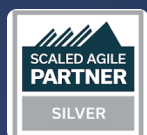

Stakeholder map, policy gap assessment, the case for change, and a drafted epic hypothesis statement.

Governance inside SAFe

Responsible AI is fitted to the roles and events you already run rather than bolted on as a separate process.

Built for portfolios

The session ends where the work actually starts — an epic the portfolio can sequence and fund.

★★★★★ 4.9 / 5

Rated by learners on Google. Agile36 has trained professionals at Fortune 100 and Fortune 500 companies, government agencies, and universities for more than a decade.

WHAT CHANGED IN VERSION 6.0

Practice over principles

Every module produces an artefact you take back, rather than a framework you agree with and forget.

Policy meets delivery

Existing policies are assessed against how work really flows through your ARTs.

Risk in business terms

The case for responsible AI is made as delivery risk, not as ethics in the abstract.

01 · PROGRAM OVERVIEW

Responsible AI, turned into something fundable

Most organizations agree that AI should be used responsibly and then struggle to say what that means on a Tuesday. This half-day workshop closes that gap by treating responsible AI as portfolio work: who the stakeholders are, what the current policy actually covers, how to make the case, and what the epic looks like.

You leave with a stakeholder map, a gap assessment against your existing policies, and a drafted Responsible AI epic hypothesis statement tied to measurable outcomes — positioned where the portfolio can sequence it.

THE AGILE36 DIFFERENCE

You define roles, concerns, and who must be in the room before policy talk starts.

Every class is live, capped for discussion, and led by a certified SAFe® Practice Consultant.

4

Hours, live and instructor-led

4

Modules, each producing an artefact

1

Epic hypothesis statement you leave holding

4

PDUs and SEUs toward renewal

WHAT'S INCLUDED

4 hours live

Half a day of instructor-led virtual classroom — not recordings.

Micro-credential

A Scaled Agile micro-credential badge on completion.

4 PDUs / SEUs

Credit toward PMI and Scrum Alliance renewal requirements.

SAFe Studio

One-year membership plus SAFe Connect community access.

Digital workbook

The official 6.0 courseware, yours to keep and annotate.

AI prompt library

Reusable prompt patterns you can run the week after class.

Practice test

Free practice exam and preparation materials.

Free reschedule

Miss a session and join the next cohort at no extra cost.

Hands-on, not lecture. The class runs on activities, small-group discussion, role-play, and a running case study — including 4 AI activities where you write prompts, critique the output, and edit it into something a real team could use.

02 · WHY THIS CERTIFICATION, NOW

Everyone agrees on responsible AI. Almost nobody has funded it

AI adoption is running ahead of AI governance in most enterprises. The gap is rarely disagreement about principles — it is that nobody has turned those principles into work with an owner, a budget, and a measurable outcome. That is precisely what this session produces.

WHERE THIS TRAINING LANDS

Agile36 has delivered this course into:

- ✓ Financial services and insurance
- ✓ Healthcare and life sciences
- ✓ Government and public sector
- ✓ Telecom and media
- ✓ Retail and logistics
- ✓ Higher education

“This course provided excellent insights into implementing Responsible AI within SAFe. The stakeholder identification module was particularly valuable for my AI transformation project.”

Sarah Johnson · Product Manager

03 · DELIVERY MODE

- ✓ Live virtual classroom delivered remotely worldwide, over half a day
- ✓ Taught by certified SAFe® Practice Consultants (SPCs), never contractors reading slides
- ✓ Cohorts kept small enough for real discussion and Q&A
- ✓ Open to attendees anywhere — weekday and weekend cohorts across US time zones, with private cohorts timed to your region

PREREQUISITES

- ✓ None. The workshop is open to all attendees.
- ✓ No technical AI background is assumed.
- ✓ Most useful if your organization is adopting AI without a policy yet.

04 · WHAT YOU'LL BE ABLE TO DO

Outcomes you can point to on Monday morning

The role

- ✓ Identify and map key stakeholders in AI initiatives
- ✓ Define roles and responsibilities for Responsible AI

Planning and leading

- ✓ Address stakeholder concerns effectively
- ✓ Evaluate and implement RAI policies

Executing

- ✓ Communicate the need for RAI across the organization
- ✓ Write effective RAI Epic Hypothesis Statements

AI-augmented product work NEW

- ✓ Turn responsible AI from a principle into a **funded epic**
- ✓ Assess an existing **AI policy** against how your ARTs actually work
- ✓ Frame AI risk as **delivery risk**, in language the business acts on
- ✓ Place governance inside **SAFE events** instead of alongside them
- ✓ Define **measurable outcomes** so responsible AI can be inspected

05 · WHO SHOULD ATTEND

Epic Owners

Writing and sequencing AI epics.

Portfolio Managers

Governing AI investment.

Product Managers

Shipping AI-touched products.

RTEs

Running AI work through an ART.

Agile Coaches

Coaching responsible practice.

Risk & Compliance

Translating policy into delivery.

Business Owners

Accountable for AI outcomes.

Executives

Setting the guardrails.

Certification. This is a Scaled Agile micro-credential workshop. There is no certification exam. Completing the live session earns the official credential.

06 · COURSE CURRICULUM

4 modules, Half a day

The official 6.0 module structure. Topics marked **AI** are new or reworked in this release — AI runs through the lessons rather than sitting in one at the end.

01 Identifying Stakeholders

- Map key stakeholders
- Define roles and responsibilities
- Address stakeholder concerns

02 Evaluating RAI Policies

- Review existing Responsible AI policies
- Fit policy to SAFE roles and events
- Find gaps that belong on the backlog

03 Communicating the Need for RAI

- Make the case to leaders and teams
- Connect RAI to delivery risk
- Keep the conversation inside SAFE events

04 Writing an RAI Epic Hypothesis Statement

- Draft the hypothesis
- Tie it to measurable outcomes
- Place the Epic where the portfolio can sequence it

07 · AI IN THIS COURSE

Responsible AI as portfolio work

This is a working session, not an ethics lecture. You leave with a stakeholder map, a policy gap assessment, and a drafted epic hypothesis statement the portfolio can sequence.

Map your stakeholders **MODULE 1**

Identify who actually has a say in responsible AI in your organization, define roles and responsibilities, and surface the concerns that will otherwise block you later.

Evaluate existing policy **MODULE 2**

Review the Responsible AI policies you already have, fit them to SAFE roles and events, and find the gaps that belong on a backlog.

Make the case **MODULE 3**

Connect responsible AI to delivery risk and practise making the argument to leaders and teams inside the SAFE events you already run.

Write the epic hypothesis **MODULE 4**

Draft a Responsible AI epic hypothesis statement, tie it to measurable outcomes, and place it where the portfolio can sequence and fund it.

PROMPTING TECHNIQUES YOU'LL TAKE AWAY

- Turn responsible AI from a principle into a **funded epic**
- Assess an existing **AI policy** against how your ARTs actually work
- Frame AI risk as **delivery risk**, in language the business acts on
- Place governance inside **SAFE events** instead of alongside them
- Define **measurable outcomes** so responsible AI can be inspected

RESPONSIBLE AI

A full topic, not a disclaimer. You'll work through common AI risks and the three aspects of responsible use:

- ✓ **Trustworthy AI** — reliable enough to base a decision on
- ✓ **Explainable AI** — you can say why it produced that
- ✓ **Human-centric AI** — the person stays accountable

08 · YOUR INSTRUCTORS

Taught by practising SPCs

Deadra Stevenson

CEO & Founder · SPC®

15+ years leading large-scale change and 30+ Lean-Agile transformations for Fortune and enterprise organizations. Pairs deep SAFe expertise with practical AI transformation guidance.

Marcus Ball

Enterprise Agile Coach · SPC®

Specializes in SAFe certification training and transformation coaching, helping teams improve flow, alignment, and the value they actually deliver.

Joe Puoci

Enterprise Trainer · SPC®

Delivers live virtual SAFe courses across the portfolio with a focus on real-world scenarios and skills learners can use the week after class.

Martina Svoboda

Enterprise Agile Coach · SPC®

Learner-centered facilitation spanning Agile transformation, organizational development, and change leadership.

ENROLL

\$350 ~~\$700~~ per seat, everything included

Weekday and weekend cohorts running throughout the year. Groups of five or more save 25%; private cohorts can be scheduled around your PI calendar.

agile36.com/courses/responsible-ai

ABOUT AGILE36

Agile36 is a transformation and technology enablement firm helping organizations accelerate performance, modernize operations, and build the capabilities required to compete in the digital era. For more than a decade we have partnered with Fortune 100 and Fortune 500 companies, government agencies, and universities to guide large-scale change.

As a **Scaled Agile Silver Partner**, we deliver accredited SAFe® courses led by industry-recognized SPCs — hands-on, practical training that helps teams adopt new ways of working and produce measurable results.
